"Za sva vremena"

Since

----- 1970 -----

Zlatarskim zanatom bavimo se već 40 godina. Prateći moderan dizajn i nove tehnologije, usavršavali smo umeće oblikovanja plemenitih metala, ali smo ostali dosledni prepoznatljivom stilu i kvalitetu.

Sve vreme smo prisutni kako na domaćem tržišti tako i na tržištima SAD i Evrope

Naš proizvodni program čini:

- **nakit od zlata i srebra**
- **zlatnici, srebrnjaci i tombaci**
- **ukrasni proizvodi** (posuđe, pehari, suveniri, figure, crkveni program...)
- **industrijski proizvodi** (zlatni i srebrni lemovi, tečno zlato, proizvodi na bazi čistih plemenitih metala i njihovih legura).

Pružamo usluge rafinacije svih vrsta otpada koji sadrže plemenite metale.

Posedujemo laboratoriju za ispitivanje finoće legura verifikovanu od strane Direkcije za mere i dragocene metale Republike Srbije.

Svi naši proizvodi od plemenitih metala verifikovani su sopstvenim žigom, žigom oznake finoće i državnim žigom, koji su garant kvaliteta i sadržaja plemenitih metala u njima.

Takođe, posedujemo alatnicu u kojoj je moguće izraditi sve neophodne alate za postupke štancovanja, utiskivanja, opsecanja i kovanja. Alate izrađujemo za sopstvene potrebe ali i po zahtevima kupaca.

NAKIT

Proizvodimo:

- **lance,**
- **narukvice,**
- **ogrlice,**
- **žensko prstenje,**
- **muški nakit,**
- **burme,**
- **minduše,**
- **priveske,**

Tradicionalno klasični i moderno dizajnirani komadi nakita imaju zajednički vrhunski kvalitet, lepotu i vrednost plemenitih metala kao i ugrađenog sintetičkog, poludragog i dragog kamenja.

Ako u našem assortimanu nakita ne pronađete ono što želite, vešti majstori će rado vašu ideju pretočiti u komad željenog oblika, boje i finoće.

"For all times"

Since

----- 1970 -----

We are in goldsmith business for more than 40 years. Following modern design and new technologies, we improved the craft of precious metals modelling, but still in our own recognizable style and high quality.

For all that years, we are presented both on domestic and markets of the U.S and Europe.

Our products range covers:

- **Gold and silver jewelry,**
- **Gold coins,silver coins and brass coins** (gold plated),
- **Decorative products** (dishes, bowls, souvenirs, figures, ecclesiastical program...)
- **Industrial products** (gold and silver solders, liquid gold for decoration, other products

based on precious metals and alloys).

We can offer refining service of scrap which include precious metals. Also, in our laboratory we can analyze the fineness of different alloys, under the licence of state institute for measures and precious metals of Serbia.

All our products made of precious metals, are verified with producer's mark, mark of type of fineness, and the state mark of Serbia. That's the guarantee of quality and fineness of precious metals in our products.

Also, in our toolroom, it's possible to make all the necessary tools for the processes of die-striking, imprinting, cutting and mintage. We make tools for our own production, and also, at demands of purchaser.

JEWELRY

We are producing:

- **Chains,**
- **Bracelets,**
- **Necklaces,**
- **Rings,**
- **Men's jewelry,**
- **Wedding rings,**
- **Earrings,**
- **Pendants**

Traditionally classical and new modern-designed jewelry, with common goal of high quality, beauty and value of precious metals, together with precious, semi-precious and synthetic stones.

If you want to purchase some other types of jewelry, which is not covered in our catalogue, our skilled masters will be glad to make jewelry at your choice, in different shapes, colors and fineness.
